1. The amendment filed July 6, 2004 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 12-15 drawn to an invention non-elected without traverse. Accordingly, claims 12-15 have been cancelled.

3. Claims 1, 3-11, 16-19 and 21-27 have been allowed.
4. The following is an examiner's statement of reasons for allowance: The claims were allowed in view of applicant's amendments and arguments. It is noted that Patashnick et al cited in the IDS filed Feb. 17, 2004 did not appear to be prior art based upon applicant's filing date and the filing date and contents of applicant's provisional application. If usable prior art it is believed that a rejection of at least claims 16 and 23 using the teachings disclosed in Patashnick et al may have been warranted. It was determined from the record that no showing could be made of failure to comply herein with the provisions of 35 U.S.C. 102(f or g) with regard to the teachings of Patashnick et al from the evidence of the disclosure therein and the disclosure of this application and its parent provisional since the reference to a Patashnick et al on page 1 of the provisional application appeared to be directed only to the teaching of the use of a

TEOM developed earlier thereby and not the system described in the Patashnick et al article cited in the IDS of Feb. 17, 2004.

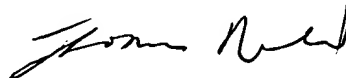

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
